I should like to express to you my sincere appreciation for the outstanding and sustained professional assistance which you have rendered the Central Intelligence Agency in a variety of circumstances over a long period of years. Your efforts and advice in the early establishment and development of our psychiatric program were invaluable in providing the foundation for the program we so greatly value today. Your continued interest and participation are greatly appreciated.

I have been personally aware of many of the fine things you have done for us. It was only recently, however, that I realized our association has now spanned some eighteen years. The uniquely professional competence which you have brought to the Agency has consistently produced outstanding results. I simply wish to convey that it has not gone unnoticed that your work for us has been on many occasions at the sacrifice of your personal time and professional practice. We are deeply grateful.

Sincerely,

Richard Helms
